Guido has over more than 15 years of experience and great interests in backend and fronted web-development. He is very experienced in full LAMP-stack development as well as JavaScript, HTML5/CSS3, Ruby, Java, and other languages.

Besides developing great software, Guido also can manage/facilitate these projects in a Agile way. He is both skilled in facilitating all needs for the development-team and other stakeholders, as well as making the translation of business processes into realised use-cases which fits everybody's needs.

EXPERIENCE

SENIOR DEVELOPER (2016 - present)

PTI, Woerden

Developing a access management system for the petrochemical industry.
