VueJS / AngularJS

Symfony2 / ZendFramework

.NET MVC

RubyOnRails

Experienced IT professional with over 20 years of work experience across various sectors, including Field Service Management, TMT (Technology, Media, and Telecom), and IT. With a background in software development and roles as IT manager and ScrumMaster, I have grown into a strategic leader. As Director of IT & Innovation, I combine deep technical expertise with strategic vision. In my current role, I bridge the gap between business and IT, translating complex technical challenges into tangible business value. Colleagues describe me as inspiring, perceptive, and results-oriented with strong opinions and a clear direction.

I am proud of the realization of PlanningSuite and Go-Workforce (part of Boels Rental), both powerful SaaS solutions that help businesses move forward. My passion lies in shaping a platform within an organization that continuously grows, innovates, and creates sustainable value for customers.

EXPERIENCE

**IT DIRECTOR /
IT MANAGER /
LEAD DEVELOPER**
(2016 - present)

PTI, Woerden

PTI is a SaaS software provider for (digital) meter reading services and a WorkForceManagement platform called PlanningSuite. Its clients are primarily in the utilities sector, where PTI helps optimize processes related to consumer metering (such as meter replacement, readings, outages, and maintenance) for planners, technicians, and customers.

My career at PTI began as a Lead Developer on a project called Go-Workforce, a collaboration with Boels Rental. After three years of intensive development on this project, I and the team began building an entirely new platform for PTI: PlanningSuite, which replaced the legacy DMS system.

In 2023, I joined the management team, and in 2025, I was appointed Director of IT & Innovation.

MANAGER / LEAD DEVELOPER

(2013 - 2016)

LEAD DEVELOPER

(2009 - 2012)

INTERIM DEVELOPER

(2008 - 2009)

COR. PROGRAM-/ PROJECTMANAGER ICT

(2007 - 2008)

Deloitte, Amsterdam

From digital evolution to revolution, from strategy to realization across business, creativity, and technology Deloitte Digital provides the capabilities to help organizations thrive in the digital world. Part business, part creative, part tech 100% digital.

At Deloitte Digital, I developed and managed several web-based projects for various (international) organizations, including LibertyGlobal, Swinkels, and the Red Cross.

Microweb Edu, Leiden

Microweb Edu is an Educational Multi-Channel Publisher. They provide a suite of web platforms for developing, managing, selling, and printing/publishing books. Examples of their clients include: TU Delft, Leiden University, and vocational schools in technology and healthcare.

As Lead Software Developer, I was responsible for developing, testing, maintaining, and deploying all platforms that Microweb Edu delivers to its clients. I was also responsible for managing the software development team of six developers.

2Write, Amersfoort

2write creates web-based solutions for Anoto's Digital Pen and Paper platform. The Anoto pen reads and transmits handwritten text to a web server, which converts it into digital data. This digital data is used for a variety of solutions.

As a Software Developer, I built diverse backend and frontend solutions for 2write's clients.

Royal Flora Holland, Naaldwijk

FloraHolland is a cooperative organisation composed of various flower auctions in the Netherlands, with Aalsmeer and Naaldwijk being the most well-known.

Here, I managed various IT-related projects that impacted different company locations.

FREELANCER

(2004 - present)

Dubois Webcompany, Lisse

For my own company, I build web applications as a freelancer in the broadest sense of the word using the latest techniques and standards to ensure that the application, whether small or large, remains viable in the fast-evolving world of the internet.

Examples of recent work include: horecasite.nl, dietistennet.nl, and margrietbloembinders.nl.

EDUCATION

Certified ScrumMaster

(2014)

Scrum Alliance, Rotterdam

Bachelor Information and Communication Technology

(2003 - 2007)

Amsterdam University of Applied Sciences
Information Engineering

Senior General Secondary Education

(1997 - 2003)
